

MODERN SLAVERY / HUMAN RIGHTS POLICY

We understand the suffering which modern slavery, human trafficking and exploitation causes. We take a zero-tolerance approach to modern slavery, human rights violations and fraudulent behaviour.

We are a small/medium family owned and operated logistics business engaged in container cartage, unpack, warehousing and local deliveries. We only operate in Melbourne. Our working practices respect and uphold the individual and human rights of our employees and subcontractors. We have not identified any risks of modern slavery or human rights violations within our supply chain. Any identification of these issues would be immediately addressed and resolved by management.

Efflog Operations Pty. Ltd.
Trading as Effective Logistics
